🎓 Experienced Tutor | University of Hong Kong | PhD in Biology

With 16 years of experience, a PhD in Biology from the University of Hong Kong, and a BSc in Biochemistry from the Chinese University of Hong Kong, I specialise in tutoring IB Biology, IGCSE Biology, and A-Level Chemistry. My aim is to ensure students excel academically and gain a deep understanding of the subject.

Teaches: IB Biology A-Level Biology IGCSE Biology GCSE Biology AP Biology

Curriculum: IB A-Level GCSE IGCSE AP

Qualifications

University of Hong Kong: PhD in Biology (2005–2009)

Chinese University of Hong Kong: BSc in Biochemistry (2001–2005)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over my 16-year career, I've supported students from various international backgrounds, helping them navigate the challenges of IB Biology and other curriculums like A-Level and IGCSE. My approach ensures students grasp essential concepts while preparing them for high-stakes exams, often resulting in outstanding outcomes.

In addition to secondary-level tutoring, I've worked extensively with university students, guiding them through advanced biology topics such as genetics, molecular biology, and biochemistry. My experience in both academic and research settings has equipped me to help students bridge the gap between textbook knowledge and practical application.

Many of my students have successfully moved on to top-tier universities in Europe, Asia, and North America, excelling in their science-related fields. Their success stories remain a testament to the impact of thorough preparation and tailored guidance in biology and chemistry tutoring.
