🎓 Qualified Teacher | Korea University | MSc in Molecular Biology

I earned an MSc in Molecular Biology from Korea University and have 5 years of experience tutoring IB, A-Level, and IGCSE Biology. My research background inspires my teaching, and I aim to help students grasp complex concepts and succeed in their exams.

Teaches: IB Biology A-Level Biology IGCSE Biology GCSE Biology

Curriculum: IB A-Level GCSE IGCSE

## Qualifications

**Korea University:** MSc in Molecular Biology (2018-2020)

**Yonsei University:** BSc in Biology (2014-2018)

## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

Over the past five years, I've had the privilege of guiding students through various biology curricula, particularly IB Biology. Working with both HL and SL students, I have focused on helping them build a strong conceptual understanding of biology, enabling them to confidently tackle exam questions. My students have consistently performed well in their assessments.

In addition to IB Biology, I've also tutored A-Level and IGCSE Biology, providing tailored support based on each student's needs. From genetics to ecology, I ensure that my students grasp key topics while preparing for university entrance exams and beyond. The success stories of my students motivate me to continuously adapt my approach and offer the best possible support.

Having also worked with students on practical lab skills and internal assessments, I bring a well-rounded perspective to my lessons. My experience in molecular biology research allows me to offer unique insights into the field, helping students see the real-world applications of what they learn in class.
